Free Computer Hardware Recycling Offer

Large scale IT hardware upgrades usually result in high volumes of computer equipment being decommissioned. Most IT administrators want their old IT hardware collected, recycled and out of their way as soon as humanly possible. However, IT disposal projects are extremely hard to budget for as the costs of shipping and recycling can rise and fall with the cost of fuel and labor. To solve this problem our ITAD company is offering 100% free computer recycling services for items like; office computers, network hardware and decommissioned servers. To qualify you need 100 or more pre-owned servers, used switches and retired business computers. Contact our ITAD team today for more information, quote in the subject of your email 'FREE-RECYCLING-OFFER-160':
